

BUILD · CALIFORNIA ·

CLASSROOM PRESENTATIONS

As part of Build California's collaborative outreach efforts, educators can request FREE in-class or virtual presentations designed to portray construction careers in ways that are accurate and engaging for youth. Customized for the students' age and demographics, educators can request a presentation that's tailored towards specific post-secondary education (such as skilled trades, operations, and project management) or built around the amount of time available.

BUILD CALIFORNIA EDUCATOR TOOLKITS

Every in-class or virtual presentation comes with a FREE Educator Kit! The kit contains one-of each of the following Build California material and resources.

- Activity Sheets
- Career Handbook
- Career Pathways Flyer
- Classroom Lesson Plans
- Fact Sheet
- Hat
- Shirt
- Stickers
- Trade Cards

Need additional handouts? All print products are available for free download, visit the Build California Educator Portal or scan the QR code.

- Build California Overview
- Construction 101
- Construction Career Pathways Presented by a Construction Expert
- Interactive Activity
- Q&A

A LA CARTE

- Construction Industry Expert Panel (45 minutes): 2 or more industry experts share their experiences and insights with students. The panel will help demystify the industry and provide valuable insight into the 21st century construction workforce.
- Construction Equipment Demo (45 minutes): From tractors to drones to virtual reality – construction uses tools that will inspire and excite your students. This demonstration offers a close-up look at some of the coolest parts of the industry!

BOOK YOUR PRESENTATION BY FILLING OUT THE SCHOOL ACTIVATION REQUEST FORM.
